Subject: RE: SM/EMF Question

Hi Terrie -

CAB has the details from the informal complaint. Upon review, let me know if you have any additional questions.

Hi [Redacted]

I'm trying to figure out the outcome of the complaint. The news segment made it seem like the consumer was told by PG&E that he was "right" after the CPUC said PG&E was "right". I have a message into our Consumer Affairs Branch to see what they know too.

Terrie

[Redac]--

Can you answer questions for Terrie Prosper, the CPUC media relations person, about James Acton, who is mentioned in the kget story linked below?

yours,

sid

Subject: SM/EMF Question

Hi Brian,

We're trying to put together a letter to send out to consumers who call or write with concerns about EMF and Smart Meters. Do you already have language on this issue that you are putting out?

Also, did you see this: <http://www.kget.com/news/local/story/Contact-17-PG-E-shuts-off-power-admits-mistake/DZS8QZOqQEOBdPixKy3eDA.csp>

Is there someone I can direct questions to about this consumer complaint? If I get the OK from the consumer to talk about this case, I will need to check with our Consumer Affairs Branch about our findings and would need to check with your folks on yours.

Always fun,

Terrie
