Peter,

Sorry, it was not our intention to come across as providing a commentary, it was only to provide our reasoning. I remember Natalie requesting this reasoning to have a better understanding of where the IOUs were coming from.

Martin,

Please supply back a version of the doc with redline changes. It is not possible here to distinguish the IOUs' feedback/comments/edits from the original document. Taking a quick a read through, this is supposed to be a status document on consensus and non-consensus items, not a utility commentary.
