Subject: RE: New Generation analysis

Bob,  
Per your request, we will provide Alan Taylor with the Russell City confidential data so he can perform the analysis. I presume he should use the forward curves of the same vintage as was used for the other four projects.  
Roy

**Subject:** New Generation analysis

Roy,  
The Energy Division is analyzing the five new generation contracts before it, Oakley, Marsh Landing, GWF Tracy, Los Esteros, and Russell City. We would like to have Alan Taylor, the independent evaluator on the LT RFO, perform the levelized net market value calculation of the Russell City contract, to complete the analysis already performed on the other four contracts. Alan was not part of the Russell City contract revision, so he does not have the confidential data. If PG&E provided Alan with the revised Russell City contract he could perform the analysis and provide it to Energy Division. I would appreciate your help in this matter.  
Bob
