Subject: Re: PG&E SmartMeter Community Outreach Events

Thanks for the feedback Marzia. We've been working on that Sebastopol event for a while now - to make sure it is productive as it can be. We began planning and working with local stakeholders as soon as the RF concerns surfaced.

We are now averaging about 10 community events a month and are reaching between 25-150 people at each one. We have been especially successful in the San Jose and south bay area where we are just beginning deployment.

Kate

Hello

I will be attending the Sebastopol event on Wednesday. Please note that we encourage PG&E to also hold and organize your own events and not wait until a community such as Sebastopol is fed up and organizes a complaint event rather than an outreach and education event.

Marzia

Sommer, Marzia and Bruce - attached is the updated list of events. Please let me know if you have any questions. I will follow up on Monday with details on the Sebastopol event on Wednesday (where RF issues are the big deal right now). I just haven't been able to internally confirm the time and location, but do know it's a definite go.
