Subject: FW: WDAT Generation interconnection Queue - RE-DEC Issue

Meredith,
See the e-mail chain below. I think the latest ETA from PG&E on posting the queue is May.

Subject: Re: WDAT Generation interconnection Queue

Mr. Cieminis. PG&E is developing a WDT queue for publication. Presently, we are in discussions with other utilities in an effort to achieve consistency. Timing of release may not be for a few months but could be sooner. Thank you for the inquiry. [Reda]

I just wanted to quickly follow up my voicemail with an email message to inquire about PG&E's plans to publish its WDAT generation interconnection queue. Below is the email on Dec. 21 to my colleague Will Plaxico, where you noted that PG&E was looking into publishing its WDAT in 2010. I would appreciate any updated timeline on the process.

Thanks in advance for your response,

David Cieminis

Subject: FW: WDAT Generation Interconnection Queue

Mr. Plaxico:

PG&E presently does not post the WDAT on our website. We are engaged with the CPUC and other CA utilities considering a number of issues and do plan to provide a value added queue in the new year. Presently generation customers upon submittal of their interconnection request are provided their WDAT queue position.

Thank You & Happy Holidays,

Subject: WDAT Generation Interconnection Queue

Hello,

Is PG&E currently posting a WDAT queue for distribution interconnection applications similar to those posted by SCE:

http://www.sce.com/nrc/aboutsce/regulatory/openaccess/wdat/SCE_WDAT_SGIP_Generator_Ir

And SDG&E:

<http://www.sdge.com/regulatory/documents/openAccess/generationInterconnectionQueue.pdf>

Thank you in advance,

Will Plaxico
