Subject: Data request - CREZ project assignments

Meredith,

The CREZ assignments for at least projects PG0403, PG0406, PG0505, PG0607 and PG0613 in PG&E's March 1 RPS Project Development Status Report filing are incorrect, given the listed location of the projects.

Please review the CREZ assignments for all projects in the attached document, correct them as

needed, and provide missing CREZ assignments. The attached file includes all of the information PG&E submitted on March 1, 2010; the only change is the addition by CPUC staff of CPUC IDs to some projects that did not previously have them.

Response to this data request is required by COB Thursday, April 15. Please confirm receipt of this request; I trust that it will be distributed to appropriate staff.

Best,

Anne
