Subject: FW: PG&E's Advice 3538-E-A (Service List R.06-02-012)

Meredith,

I understand that the TREC decision required two new STCs for bundled contracts. See OP# 35 below. I don't see "STC REC-2. Tracking of RECs in WREGIS" in the amendment that was filed on April 19. Am I missing something?

35. The following non-modifiable standard terms and conditions shall be included in all contracts for procurement for compliance with the California renewables portfolio standard, whether bundled contracts or purchases of renewable energy credits only:

a. STC REC-1. Transfer of renewable energy credits Seller and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement the renewable energy credits transferred to Buyer conform to the definition and attributes required for compliance with the California Renewables Portfolio Standard, as set forth in California Public Utilities Commission Decision 08-08-028, and as may be modified by subsequent decision of the California Public Utilities Commission or by subsequent legislation. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law.

b. STC REC-2. Tracking of RECs in WREGIS Seller warrants that all necessary steps to allow the renewable energy credits transferred to Buyer to be tracked in the Western Renewable Energy Generation Information System will be taken prior to the first delivery under the contract.

Regards,
Sean

Sorry about that. Here they are (I am still waiting for the word version of appendix B, and will forward once I receive it):

Thanks,
