This is what will mail tomorrow. If there is a major problem, please let me know. It can be changed in the final if it's really problematic.

On April 19, 2010, PG&E filed Supplemental AL 3538-E-A amending the proposed PPA to include new standard terms and conditions, adopted in Decision (D.) 10-03-021, and modified contract terms and conditions related to transmission costs. The supplemental AL did not impact the contract term, capacity, generation, deliveries, commercial operation date or price.

Regards,
Sean

Subject: RE: Agua Caliente language

Sean,

With respect to the Supplemental Advice letter, I would prefer that we use the same language from the supplemental filing, rather than refer to transmission network upgrade costs in the public version of the resolution.

The Amendments include changes that reflect the Commission's new standard terms and conditions, as set forth in Decision ("D.") 10-03-021, and also changes other confidential terms and conditions of the PPA. The changes do not impact the PPA's term, capacity, generation, online date, deliveries, or price.

Subject: Agua Caliente language

Meredith and [Redacted]

Please review the draft language below for Agua to make sure there is no confidential information. Please propose alternate language if necessary.

Meredith - you never got back to me about the WREGIS REC STC per the TREC decision. It looks like substantively it is already included in the PPA, but it's not verbatim. Let me know if I am missing something. In the future, since this is a non-modifiable STC, any contract that is amended for STCs should include the Commission required WREGIS language.

Description of Supplemental AL:

PG&E filed Supplemental AL 3538-E-A to amend contract terms and conditions related to transmission network upgrade costs and to include RPS standard terms and conditions, pursuant to D.10-03-021.

Finding to address debit to Agua for network upgrade costs and the credit for the TAC payments.

All payments made or received under the PPA shall be made through PG&E Energy Resource Recovery Account.

Regards,
Sean
