QUESTION 8B

PG&E forecasted \$1.432 million for Miscellaneous Maintenance Items in 2011 which is an increase of \$0.954 million or 199.58% over 2008 expenses of \$0.478 million.

- b) PG&E states that its 2011 Miscellaneous Maintenance forecast “represents new work since the 2007 GRC and its comprised of the following items: equipment failure analysis and information technology changes”.

ANSWER 8B

PG&E objects to this question on the grounds that is vague and ambiguous and PG&E does not understand the question.

PG&E interprets this question to request the basis for the forecast for each Miscellaneous Maintenance Item. For failure analysis work and information technology changes (EDM Program-IT Major Work) see Exhibit (PG&E-3), Workpaper 2-54.
