Subject: RE: Retroactive Mass Enrollment - Phase I

Hi Dawn,

Regarding the process for addressing any opt-out requests received by PG&E since May 4th, we are currently awaiting further guidance from the CPUC for implementing the actions indicated in the letter. Once this has been finalized, PG&E will take care of any necessary enrollment transactions. We will finalize the list of affected accounts and share that with you in the near future. Let me know if you have any specific questions in the meantime.

Thanks,
[Redacted]

Thank you for the update. Pol reported to me today that the CCASR process seems to be working for the bulk of the customers listed below. Thanks for all the hard work on this. I know there have been a lot of moving parts which has added to the complexity of the process.

As Steve responded on Friday, the draft letter you mentioned below was submitted to the CPUC last week with our revisions and they (CPUC) will be taking the next cut at it.

The next thing we need to figure out is the process for re-enrolling any of the 300+ MEA customers been dropped from service since the May 4th letter went out (as per the letter from Director Clanton on 5/12 and response from Mr. Cherry on 5/13). Shall Pol CCASR those customers? Alternatively, if you think you could do this quickly, would you prefer to do a re-enrollment for these customers instead of using the CCASR process? If you do not have a quick answer on this I can set up a call for us to discuss – but we would like to have it resolved very soon so that our forecasting does not get out of whack.

Thanks,

Dawn

Subject: RE: Retroactive Mass Enrollment - Phase I

Dawn:

I've been discussing these retroactive mass enrollments over the past couple of days with Pol, and informed him that there were a few adjustments needed to this list and that the upload will be occurring this afternoon.

Attached is an updated listing of the retroactive mass enrollment. Please use the individual worksheets and ignore the "Total" worksheet. The "Total" worksheet has not been updated to reflect the changes noted below. These individual worksheets includes SA_IDs associated with:

- New customer accounts from previously closed accounts (572) - see "new accounts" worksheet
 - I removed SA_ID 1405780910 because there was another subsequent new account created for the same site, SA_ID 2081212358
 - I removed 4 SA_IDs listed below that have recently closed or are pending stop - SA_IDs 0933686091, 2434344920, 6519944174, & 8786190516
- Customer accounts whose opt out request has been rescinded (166) - see "rescinded opt out" worksheet
 - (Please remove the 55 SA_IDs identified in the "For Phase 1B" worksheet from the "rescinded opt out" worksheet since these will be part of Phase 1B
- Customer accounts whose MEA territory status will be restored (5) - see TOT correction worksheet

On a related note, have you had a chance to review the draft customer letter that Trina Horner sent to you Tuesday afternoon? We would like to finalize the arrangements for the customer letter as soon as practical.

Let me know if you have any additional questions.

Thanks.

Have these customers been mass enrolled yet?

Dawn

Subject: Retroactive Mass Enrollment - Phase I

Dawn, Pol, John, and Kirby:

As we discussed at our meeting this morning, attached is a list of all the customer accounts that we plan

to mass enrolled retroactively. The attachment consists of 4 tabs -

- A Total (803) list with all of the pertinent customer data for you to setup in your systems and estimate load volumes (the meter ready cycle code is in column V)
- A SA_ID listing (577) of the new customer accounts from previously closed accounts
- A SA_ID listing (221) of the customer accounts whose opt out request has been rescinded
- A SA_ID listing (5) of the customer accounts whose MEA territory status will be restored (your correction list consisted of 7 accounts but 2 of these accounts - 1939277065 & 1939277070 are captured in the group of 221 opt out rescissions)

We plan to mass enrolled these 803 SA_IDs into our system in the next day or two, and you should expect to see "acknowledgement CASRs" by the end of the week.

If you have any questions regarding this data, please let me know.

Thanks,
