Subject: Final Back-up Questions for Friday event

Paul:

Finally, Here are some questions you can ask Chris Pickett if there is radio silence from the audience.

What is the number one training challenge that PG&E faces today?

From a training standpoint what is PG&E doing better than it was ten years ago to support new employees joining the company?

Again, from a training standpoint, are there things that are being done in other industries that PG&E is contemplating?

Bill

Subject: FW: Speaker bios for event

Paul:

Here are all of the speaker bios for Friday as background. I have 2 of your 3 back up quesiotns for the panel members. They are:

Lynn - What is the prospect for workers in the nuclear industry - 5, 10, 15 years in the future?

Hunter - What training methods has the IBEW found to be most effective for its memebership?

Chris - to follow.

Let me know if you need anything more.

Bill
