**NOTICE OF PUBLIC PARTICIPATION HEARINGS REGARDING
PACIFIC GAS AND ELECTRIC COMPANY'S 2011 GENERAL RATE CASE (GRC)
PHASE I AND GAS TRANSMISSION AND STORAGE PROCEEDING**

**THE CALIFORNIA PUBLIC UTILITIES COMMISSION
WOULD LIKE TO HEAR FROM YOU**

What is the Gas Transmission and Storage proceeding (A.09-09-013)?

Pacific Gas and Electric Company's (PG&E) Gas Transmission and Storage (GTS) proceeding was filed with the California Public Utilities Commission (CPUC) on September 18, 2009. Notice of the application was mailed directly to customers in October 2009. The GTS proceeding proposes cost of service and rates for gas transmission and storage services for the period 2011-2014. PG&E also presents its forecasts of expected demand and system usage for 2011 through 2014, as well as how the costs to operate its transmission and storage business will be assigned to each customer class.

What is the 2011 General Rate Case (A.09-12-020)?

Phase I of PG&E's General Rate Case (GRC) was filed with the CPUC on December 21, 2009. Notice of the application was mailed directly to customers beginning in January 2010. Every three years, PG&E is required to file a GRC in which the CPUC sets annual revenue levels. Annual revenue is the total amount of money a utility collects through rates in a given year for specific purposes. PG&E's application asks the CPUC to increase the revenue that PG&E uses to distribute gas and electricity and to generate electricity. While the GRC will determine the total amount of money PG&E may collect in rates, the design of the actual rates themselves (that is, the level of prices charged to customers) will be determined in a separate proceeding (2011 General Rate Case Phase II), which was filed on March 22, 2010. Notice of that filing was sent directly to customers beginning in mid April, 2010. The GRC, in addition to the GTS proceeding, will be the subject of the Public Participation Hearings discussed below.

PUBLIC PARTICIPATION HEARINGS

The CPUC will hold a series of Public Participation Hearings (PPHs) commencing on May 24, 2010, at various locations throughout PG&E's service area. The dates, locations and times of the PPHs are listed below. Consumer services representatives from PG&E and consumer affairs representatives from the CPUC will be present at each location to assist with individual customer billing and service concerns. These hearings will be your opportunity to express your views.

The PPHs will be facilitated by the assigned Administrative Law Judge with oral comments accepted from the public. The CPUC will consider public comments and include them as part of the formal record in the GRC and GTS proceedings. The following locations are all accessible to those in wheelchairs. If you need to have interpreters for language or are hard of hearing, please contact the CPUC's Public Advisor's office at the address listed inside this notice at least five days in advance of the hearing date.

FILING TO CUSTOMERS**

I, Tim M. I declare under penalty of perjury that the foregoing is true and correct.

Dated, May 11, 2010, at West Sacramento, California.

TIM M. TRUJILLO

Real time pricing and revised customer energy statement

In this GRC Phase II application, PG&E is seeking CPUC authority to approve the second phase of its dynamic pricing rates, or optional Real Time Pricing rates, as ordered by the CPUC in July 2008. PG&E is also requesting recovery of \$17 million in costs associated with \$7 million in revenue requirements to implement this new real time pricing rate option. In addition, in compliance with a July 2007 CPUC order, PG&E needs to revise its customer energy statement and is requesting recovery of \$36.1 million in costs associated with \$5.6 million in revenue requirements to implement the changes. These costs are not included in the tables inside but will increase rates for all electric and gas customers who take transmission and distribution service from PG&E (bundled, direct access and community choice aggregation customers) by a small amount. For electric customers, the maximum rate increase is expected to occur in 2014 and would be \$6.5 million, or an increase of approximately 0.05 percent to system average bundled electric rates. The maximum increase for gas customers is expected to occur in 2013 and would be \$4.8 million, or an average increase of 0.1 percent. Departing load electric customers will not be affected by this cost recovery request.

THE CPUC PROCESS

The CPUC's Division of Ratepayer Advocates (DRA) will review this application. The DRA is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state and obtain the lowest possible rate for service consistent with reliable and safe service levels. The DRA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. The DRA's views do not necessarily reflect those of the CPUC. Other parties of record will also participate.

The CPUC may hold evidentiary hearings where parties of record present their proposals in testimony and are subject to cross-examination before an Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are parties of record may present evidence or cross-examine witnesses during evidentiary hearings. Members of the public may attend, but not participate in, these hearings.

After considering all proposals and evidence presented during the hearing process, the ALJ will issue a draft decision. When the CPUC acts on this application, it may adopt all or part of PG&E's request, amend or modify it, or deny the application. The CPUC's final decision may be different from PG&E's application.

If you are writing a letter to the Public Advisor's office regarding any of the applications mentioned in this notice, please refer to the address listed inside and include the number(s) of the application(s) (A.09-09-013, A.09-12-020 and/or A.10-03-014) to which you are referring. All comments will be circulated to the Commissioners, the assigned Administrative Law Judge and the Energy Division staff.

GAS TRANSMISSION AND STORAGE PROCEEDING AND
NOTICE OF FILING OF PACIFIC GAS AND ELECTRIC COMPANY'S
2011 GRC PHASE II APPLICATION**

**THE CALIFORNIA PUBLIC UTILITIES COMMISSION
WOULD LIKE TO HEAR FROM YOU**

What is the Gas Transmission and Storage proceeding (A.09-09-013)?

Pacific Gas and Electric Company's (PG&E) Gas Transmission and Storage (GTS) proceeding was filed with the California Public Utilities Commission (CPUC) on September 18, 2009. Notice of the application was mailed directly to customers in October 2009. The GTS proceeding proposes cost of service and rates for gas transmission and storage services for the period 2011-2014. PG&E also presents its forecasts of expected demand and system usage for 2011 through 2014, as well as how the costs to operate its transmission and storage business will be assigned to each customer class.

What is the 2011 General Rate Case (A.09-12-020)?

Phase I of PG&E's General Rate Case (GRC) was filed with the CPUC on December 21, 2009. Notice of the application was mailed directly to customers beginning in January 2010. Every three years, PG&E is required to file a GRC in which the CPUC sets annual revenue levels. Annual revenue is the total amount of money a utility collects through rates in a given year for specific purposes. PG&E's application asks the CPUC to increase the revenue that PG&E uses to distribute gas and electricity and to generate electricity. While the GRC will determine the total amount of money PG&E may collect in rates, the design of the actual rates themselves (that is, the level of prices charged to customers) will be determined in a separate proceeding (2011 General Rate Case Phase II), which was filed on March 22, 2010, and is noticed later in this insert. The GRC, in addition to the GTS proceeding, will be the subject of the Public Participation Hearings discussed below.

PUBLIC PARTICIPATION HEARINGS

The CPUC will hold a series of Public Participation Hearings (PPHs) commencing on May 24, 2010, at various locations throughout PG&E's service area. The dates, locations and times of the PPHs are listed inside. Consumer services representatives from PG&E and consumer affairs representatives from the CPUC will be present at each location to assist with individual customer billing and service concerns. These hearings will be your opportunity to express your views.

The PPHs will be facilitated by the assigned Administrative Law Judge with oral comments accepted from the public. The CPUC will consider public comments and include them as part of the formal record in the GRC and GTS proceedings. The following locations are all accessible to those in wheelchairs. If you need to have interpreters for language or are hard of hearing, please contact the CPUC's Public Advisor's office at the address listed inside this notice at least five days in advance of the hearing date.

NOTICE OF FILING OF PACIFIC GAS AND ELECTRIC COMPANY'S 2011 GENERAL RATE CASE PHASE II APPLICATION (A.10-03-014)

Background

On March 22, 2010, PG&E filed its 2011 General Rate Case Phase II (GRC Phase II) application with the CPUC.

In the GRC Phase II application, PG&E is asking the CPUC to allocate or divide its authorized revenue among different customer classes and to design electric rates for these classes. In addition, PG&E is requesting authority to recover approximately \$53.1 million in costs associated with \$12.6 million in revenue requirements for 2011-2013, which includes the cost of implementing a new real time pricing rate option and a revised customer energy statement for electric and gas customers.

Does this mean electric rates could change?

Yes. In the GRC Phase II application, PG&E is seeking CPUC authority to change electric rates for all customer classes. PG&E makes this request to better align electric rates with current costs of serving its various customer classes. PG&E proposes decreases for some customers and increases for others, with such rate changes to take effect by mid-2011. PG&E estimates that electric rates will be affected in the manner shown in the tables at right, which show the effects by customer group without any change in the total revenue PG&E collects. The actual increase or decrease to each customer class depends on how the CPUC ultimately decides all the proposals in GRC Phase II.

The rate changes proposed in GRC Phase II will affect bundled customers (those who receive electric generation, transmission and distribution service from PG&E) and customers who purchase electricity from other suppliers (direct access and community choice aggregation customers). Finally, while not shown in the tables at right, PG&E's proposals will affect departing load customers (those who receive electric generation, transmission and distribution services from non-PG&E suppliers) who are required to pay certain utilities charges (in this case, the Public Purpose Program charge).

PG&E's proposals include a number of changes to residential rates. To illustrate the effect these changes would have on residential customers, the table below shows the bill change first for the typical bundled customer using 550 kilowatt-hours (kWh) per month, next for a bundled customer using approximately twice the average baseline allowance, or 850 kWh per month, and finally for a bundled customer with significant upper tier usage of 1,500 kWh per month. Results are shown in the table below for standard residential schedule E-1 and for customers of the same size taking service on the California Alternate Rates for Energy (CARE) program for low-income customers.
