- Q 1: DRA-5, Page 55, Table 5-7 references PG&E's recorded expenditures for MWCs EV and EW as \$13,174 and \$21,980, respectively, in 2009. These figures appear to come from PG&E's response to DRA-122, but reference data expressed in 2008 base dollars instead of nominal dollars. The correct figures in nominal dollars should be \$13,647 for MWC EV and \$22,898 for MWC EW (\$36,554 total). Does DRA concur?
- Q 2: DRA-5, Page 55, Table 5-7, "Source" note indicates a discrepancy in the 2009 expenditures reported in Table 5-7 and the 2009 figures reported by PG&E on DRA-207. PG&E indicated that the all figures in DRA-207 are referenced as "forecasted" figures, not recorded. Therefore, the note in DRA-5, Table 5-7 is trying to compare a discrepancy between a forecasted figure and recorded figure, and not differing recorded figures. Does DRA concur?
- Q 3: Please provide all workpapers and other documents DRA used in support of its Exhibit (DRA-5), Section VII Report testimony regarding New Business and Work at the Request of Others. If there are no such documents, please so indicate.
- Q 4: Please provide all calculations DRA used in support of its Exhibit (DRA-5), Section VII Report testimony regarding New Business and Work at the Request of Others. If there are no such calculations, please so indicate.
