DRA Witness: Tamera Godfrey

Q 1: DRA recommends that PG&E only receive 50% or \$1.4 million of the requested Electric RD&D funding. DRA states the reduction is due to “the fact that this is a new program and PG&E has no reliable historical data to evaluate, analyze and compare to its test year forecast”. Please provide workpapers and any other supporting documentation to show how DRA arrived at the \$1.4 million reduction. Please include detail at the project level to show which projects are not being funded (either in whole or in part) and the reasons for the disallowance.
