

PACIFIC GAS AND ELECTRIC COMPANY
General Rate Case 2011 Phase I
Application 09-12-020
Data Request

Recipient:	Dao Phan		
PG&E Data Request No.:	PGE_DRA033		
PG&E File Name:	GRC2011-Ph-I_DR_PGE_DRA033		
Request Date:	May 14, 2010	PG&E Witness:	Carl Speck
Due Date:	May 28, 2010	PG&E Witness Phone No.:	925-866-5234
Topic:	Applied Technology Services – MWC AB Climate Change and Electric and Magnetic Field (EMF) Program		

Subject: DRA-7 Gas Distribution Operation & Maintenance Expenses (plus Technical Training and Applied Technology Services) – MWC AB

Reference: Exhibit (PG&E 3) Chapter 23

DRA Witness: Dao Phan

- Q 1: DRA recommends a \$358,000 reduction to the Electric and Magnetic Field Program stating that “PG&E already has 2010 embedded funding for the Radio Frequency and Occupational Studies Programs that the Company requests for 2011. No additional funding is necessary for the EMF program in 2011 because this is not a new cost for the Test Year”. Given that the costs of these programs were not included in the last General Rate Case and are not in PG&E’s base year, please provide an explanation as to how these costs are considered to be embedded in PG&E’s funding and should not be funded as part of this rate case.
- Q 2: DRA recommends a \$558,000 reduction to the Operational Planning for Climate Change Program stating that “This program has been in existence since 2007 and PG&E has not been spending at the level it forecasts for 2011”. Please provide workpapers and supporting documentation to show how DRA arrived at the \$558,000 reduction. Please include detail to show which cost components are not being funded (either in whole or in part) and the reasons for the disallowance.
