Subject: RE: Non-DEER Review Group Meeting- Wednesday April 28, 2010, 3:30-5:00 PM

I'm sorry if there was an expectation that we have a meeting today. I thought we decided on the last call that we would not schedule another group meeting until ED had a revised draft ready to review.

We would like to wrap this up as soon as we can, but there is less urgency to finalizing a status report document. Please

don't expect any meetings on the doc until we can carve out time on our end to edit it. It may not be this week given all the other deliverables going out.

Subject: Re:

Today's non-DEER review meeting moved to Friday

Peter,

As a follow-up from Monday's meeting, we have made the following types of changes to the document:

1. Clarified what is the utilities point of view in various places ("Utility's Opinion")
2. Clarified the agreement from the April 9th meeting by adding on sentence of clarification and dropping the two sections that were problematic.
3. Added a reference to the analysis for the likely DOE2 impacts (SCE values) and an appendix with that explanation.
4. Provided some minor edits to the custom document and other items throughout.

All the changes were highlighted in yellow so they can be reviewed quickly.

We'd like to discuss in the meeting today.
