Subject: RE: meeting with MEA tomorrow

Hi Steve,

To respond to your email below, this is PG&E's expectation as well. We will be sure to have the information you are seeking below to share with both Energy Division and MEA and we will be bringing folks from PG&E who will be able to speak to the data we provide. We are working to gather this information now and hope to have something to you by the end of the day so you can take a look before the meeting.

One question for you, per our conversation last Friday, do you know who will be attending from MEA? Again, while we believe we have identified the appropriate folks from PG&E to attend the meeting for tomorrow, it would be helpful to know who will be representing MEA.

Thanks,
Daren

Subject: meeting with MEA tomorrow

PG&E folks—

For the meeting tomorrow, I've scheduled a room beginning at 9:30. I'd like to try to finish in 2 hours, but we can go longer if needed.

My expectation is that PG&E will bring a customer-specific list of all the opt-outs, by category, so we can all see the size of the groups that will need to be informed of an invalid opt-out. If you won't be bringing such a list, and sharing it with Marin, I don't see how we could have a productive meeting, so let me know, and I'll cancel the meeting and kick this back up to Clanon.

Thanks,

Steve
