Paul:

Here are all of the speaker bios for Friday as background. I have 2 of your 3 back up quesiotns for the panel members. They are:

Lynn - What is the prospect for workers in the nuclear industry - 5, 10, 15 years in the future?

Hunter - What training methods has the IBEW found to be most effective for its memebership?

Chris - to follow.

Let me know if you need anything more.
