Subject: FW: Breakdown of meter issues

Hey Sid,

I just left you a voice mail returning your call from this morning, and also asking a Q on this. Is the data in the attached public? It should be as I think Helen Burt talked off of it at last month's Florez hearing and also you had to make all of your reports public. Let me know ASAP, please.

marz

**Subject:** Breakdown of meter issues

Julie --

Please find attached a sheet that makes a comparison with the performance of SmartMeter compared to the legacy meters. I thought you would be interested in this because it shows a taxonomy of different meter problems -- installation, measurement, data storage, and communications -- with the numbers. This is to supplement the sheet that we gave you all on Monday, which focused only on measurement issues.

Let me know if you have any questions.

yours,

sid
