

Resource supply For Marin Energy Authority as of April 11, 2010						
Type Supply	Product	Resource	Fuel	Quality	Resource Location	Volume
Hourly Shaped Energy	Hourly Shaped Energy	TriDam	Large Hydro	Carbon neutral per SENA/Marin confirmation	Northern California	Up to 36,000 MWhs during 2010
Hourly Shaped Energy	Hourly Shaped Energy	System NP 15 EZ Gen Energy	Content per CEC power content label for NP 15	Content per CEC power content label for NP 15	Northern California	As needed to balance hourly loads
Other Renewable Energy	RECs	TBD	TBD	Other Renewable		
Resource Adequacy	System RA Capacity	May 2010 – TriDam Donnels	Large Hydro	CA eligible	California	Per annual and monthly CPUC requirements
Eligible Renewable Energy	Bundled Renewable Energy	Columbia Ridge	Landfill Gas	CEC Certifiable – pending certification	Oregon	As generated – approx. 50,808 MWhs during 2010-2013
Eligible Renewable Energy	Bundled Renewable Energy	Burlington Project	Biomass	CEC Certified	Washington	As generated – approx. 26,280 MWhs during 2010-2013
Eligible Renewable Energy	Bundled Renewable Energy	Nine Canyon Phase III	Wind	CEC Certified	Washington	As generated – approx. 8,224 MWhs during 2010
