Subject: Manzana - meeting with Fish and Wildlife Condor Study Lead

Hi, Meredith,

Following up on our conversation in Ojai...Can you help me arrange a meeting with the relevant Fish & Wildlife representative who is leading the effort on the condor studies in the Tehachapi region? The purpose of this meeting is to get a better sense from Fish & Wildlife if they believe a supplement is needed to give them an opportunity to formally comment on the Manzana project and also to get a better sense for how risky they believe the project is to the condor.

Thanks,

Andrew Schwartz
