Subject: RE: ED's request for demo of PG&E's custom applications tracking systems

Thanks Redacted Nikhil will attend by phone and webinar.

As to ED bringing the red army over, Tim is the lead on the 10-12 EM&V planning. Kay, Jeorge, and Jean work on the industrial type evaluations, and Ayat does the new constructions evals, and me the all-purpose trouble-maker. We are only interested in the agenda items. No other topics.

Peter-

We will set up a webinar for Nikhil.

I am still curious as to why the large group from ED. Are they interested in other topics? The agenda is currently limited to only the systems that track calculated measures. Please let me know.

Thanks, Redacted

Thanks [Redact] Appreciate you willing to move the presentation to the 18th. The agenda looks good. I'm also going to invite Nikhil Gandhi. If he is available would you mind we have a gotomeeting for him?

Thanks.

Good morning Peter-

We are set up to demonstrate our tracking systems for customized projects on Friday the 18th at 10:00 am. I have listed the agenda below.

Please clarify if this agenda covers what the ED wants to see at this meeting. In looking at your list of ED attendees it appears much broader than the DEER team.

Thank you, [Redacte]

Agenda

- Welcome by TPS Manager [Redacted]
- Demonstration of 3rd Party/GP MDSS tool and project pipeline system (3rd Party Team)
- Demonstration of NRR(SPC)/NRNC(CNC&SBD) and RCx MDSS tools (Post-Sales Team)
- Questions and Discussion

Hi [Redact]

I apologize, but I have a personal emergency that just popped up. Can we meet Friday the 18th from 10 to noon instead? It will be Zenaida, Tim, Jean, Kay, Jeorge, Ayat, and me.

Thanks for helping to set this up. I apologize for asking to switch dates.

Peter

Thanks Peter-

Let's go with June 22 from 10 to noon.

Can you let me know the names of the people who will attend from your end?

Hello Peter-

We can host a meeting and show the ED how our current customized programs track the applications and associated values. We are checking on our staff's availability and will get back to you on the day and time. Will you be coming up for this meeting or do you need us to set up a webinar?

Hi [Redacted]

We have had an opportunity to see SCE's system, and in some respect how Sempra tracks its custom projects. ED staff would like to visit PG&E to see your system(s). We wish to visit your office on June 21st or 22nd for a demo. Please let me know which of those dates works for you and your team. A morning time would be preferable.

Thanks,

Peter
