Subject: RE: PG&E Security at PUC PPH's

Thank you Brian. I will let you know if anything else happens that we need to discuss.

Michelle

Subject: FW: PG&E Security at PUC PPH's

Michelle - it looks like an isolated incident. It won't happen again. Seems like an eager beaver on our side got too eager.

Subject: RE: PG&E Security at PUC PPH's

Just an fyi -- Susie Martinez called, and said Judy Cooper (Public Advisor) let her know what occurred: one of our local security folks, trying to be helpful, was scouting the location ahead of the meeting and concerned that it wasn't setup ahead of time.

The team knows that Susie is the key contact with the public advisor's office and any communications should be from her to the Public Advisor.

Brian,

I have asked Mike Peterson to look into it - he wasn't aware of it and agreed that there should not have been any contact made, without going through you and Tom first, with the Public Advisor or anyone else at the PUC. I'll get back to you after Mike has talked to the personnel who were there.

Thanks.

Anil

Subject: PG&E Security at PUC PPH's

Anil - I received a call from Assistant Chief ALJ Michelle Cook today. She told me that the Commission's Public Advisor received a phone call from 'PG&E Security" prior to the Bakersfield and Fresno PPH's "...asking where they were and why PG&E wasn't informed of the details of security at the PPH..." Judge Cooke made it very clear that the Commission has responsibility for security at these events and while they appreciate PG&E's concerns that security be enhanced, it is not PG&E's position to tell the PUC how they are to handle security or who they need to inform. I don't want to make more out of this than it is, but could you please inform Corporate Security to not contact the Public Advisor or anyone else at the Commission without first going through myself or Tom? Also, if you could run down exactly what happened I would appreciate it. Judge Cooke wants to know what happened and what we will do to prevent it from happening in the future.
