Subject: Follow up on concern re: impact of eng rate revision

I worked with the ALJ on the issue Megan raised yesterday and as a followup obtained feedback from the ALJ that Ordering Par. 4 provides that an AL is to be filed "to implement and carry out the terms of the Partial Settlement and the adopted compression cost component of PG&E's Schedule G-NGV2 rate, and to present the necessary tariff revisions..." Since the Partial Settlement did not resolve the compression cost issue and only used PG&E's proposed number of \$0.744 in their illustrative rates, given this OP3 is ok.
