No.	Complaint Date	Customer Name	Account	Service City	Status	Explanation of Complaint Resolution
1	3/11/10	{Redacted}		AMERICAN CANYON	Resolved	No SmartMeter Device Installed During Disputed Timeframe. SmartMeter originally installed 2/26/10; current SmartMeter installed 3/25/10. Customer's complaint concerned billing periods 10/8/09 – 2/9/10. Because the disputed bills predated installation of SmartMeter, complaint is not a SmartMeter high bill complaint.
2	4/22/10		FREMONT	Resolved	Bill is Accurate. SmartMeter installed 11/9/09. Customer complained of high bill for period 12/2/09-1/5/10, stating that bill was only \$1 dollar less than prior month even though they were away for 2 weeks. Disputed bill covered 34 days whereas prior month's bill covered only 27 days. Temperatures were also colder during disputed period than during prior month. Daily usage data for disputed period showed minimal gas usage while customer was away compared to average usage of 2-3 therms per day. For electric, usage dropped to 6 kWh/day while customer was away compared to average usage of 14 kWh/day based on hourly read data. PG&E provided customer with copy of her usage history and asked her to contact PG&E after reviewing if she wanted to take any further steps. 6	5/17/10			ANTIOCH	Resolved	Bill is Accurate First SmartMeter installed on 7/27/09. This SmartMeter was tested three times for accuracy and passed each time. At the customer's insistence, a new SmartMeter was installed on 1/12/10. The billing for both meters was based on actual good reads. Customer complained of high bills during the period when the first SmartMeter was in place. Based on the extensive meter testing performed on the first meter, the usage data was deemed to be good. The two days prior to the second install, the daily usage was 23.99 and 23.12 kWh (the two days before that were 51.1 and 41.7 kWh). The two days post-installation of the second meter, usage was 19.22 and 19.22 kWh. Analysis showed usage was already decreasing prior to the installation of the second SmartMeter. PG&E did not see any issues with the usage data from the first SmartMeter. Given the SmartMeter test results and the usage pattern, the customer was told that there was no basis for an adjustment but was offered a payment plan.

10	6/1/10			ALAMO	Resolved	Bill is Accurate. SmartMeter installed 12/2/09 with good daily reads transmitted since 12/3/09. Customer stated that his bills were higher since installation of SmartMeter and that the first 3 months after installation were equal to previous years even though no one was living at residence due to remodeling, while the next 3 months (April-June bills) were 200-300 kWh higher than prior year. Customer acknowledged undertaking major home remodel around same time of SmartMeter install. PG&E advised customer that remodeling activity combined with cold weather likely contributed to usage during period when customer was not in the home. Customer was also concerned that after moving back into the home, usage was higher than same period prior year. PG&E data shows some increased usage during the disputed time period after customer moved back into residence. Meter was tested on 6/4/10 and passed. An energy audit was offered to customer to identify appliance consumption at residence. Audit was performed on 6/11/10 and results provided to customer, who was pleased with results and indicated it provided valuable info he could use to conserve in future.
11	6/2/10			BELMONT	Resolved	Bill is Accurate. SmartMeter installed 10/22/09; good daily reads transmitted since 10/23/09. Electric meter tested 1/12/09 and passed. Customer complained of high bill for unspecified period. From 12/14/09-3/8/10, post-SmartMeter, electric ADU was 65-70 kWh/day, compared to ADU of 47-48 kWh/day for same period last year. However, gas usage for period 12/6/09-3/9/10 was about 25-30 therms/month less than usage for same period last year. PG&E reviewed with customer her daily and hourly usage. Customer noticed heavy usage early in the morning, which she attributed to an electric floor mat built under ceramic tiles. PG&E also explained how customer could reduce her standby energy usage. Following her conversation with PG&E, customer's usage went down to below historic levels for the same period last year. PG&E called customer and left message asking her to call back if she had further concerns. Customer has not called back.
