Paul - I catch a plane to Germany tomorrow at 2. Do you have any time in the late morning to chat for 10 minutes ? [Redacted] has communicated a proposal to delay the on line date of Oakley by one year including the filing of a PFM for approval. I don't want to go on another failed escapade that I have to explain to management unless this has legs. If it isn't a sure thing, I'm not inclined to do that.
