Subject: DFEEQP-related: CEC Comments on CPUC EM&V ACRs

Hi Working Group (formerly known as Demand Forecast Energy Efficiency Quantification Project),

Here is some DFEEQP-related news.

As some of you may know, CPUC is seeking input on 2013-2015 evaluation, measurement & verification (EM&V) through a series of ACRs. Among the topics being discussed via the ACRs and party comments are items about the relationship between energy efficiency EM&V and demand forecasting.

Energy Commission submitted a letter in response to the ACRs. The letter was distributed to the service list. (Energy Commission is not specifically a "party" to the proceeding and so this is a letter rather than "comments" per se). Please see attached letter.

I have attached the two EM&V ACRs and the Energy Commission letter to this email. You may also wish to review comments and reply comments from parties, several of which also discuss demand forecasting related topics and DFEEQP.

Thank you.

C.
