Subject: Extension granted until 7/14 on joint IOU response to data request on program
performance metrics

Dear Athena, Don, Shilpa and
colleagues,

Per our conversation today, Energy Division is granting
a **two day extension until July 14** for the IOUs to submit
their response to the June 25, 2010 data request on program performance
metrics (PPM).

The IOUs clarified that the PPMs were
developed jointly, and that most of the intermediate work
products produced were joint work products. Some individual IOU work
products do exist, but they are the large minority. Energy Division
accepts that the IOUs will submit their response to the data request
jointly. The joint response shall include (1) all jointly
developed intermediate work products and (2) any individual IOU work
products related to the development of PPM.

Best,

Simon Eilif Baker

Subject:

Dear Athena, Don,
Shilpa and colleagues -

I wanted to bring your attention to the data request that Energy Division filed this afternoon (Friday, June 23, 2010) regarding performance metrics and program objectives.

In some cases IOU staff contacted automatically by EEGA when a data request is filed are unavailable or out of the office. I appreciate your directing this data request in a timely manner to the appropriate staff so that it can be responded to by July 9, or sooner, if portions of it are completed earlier.

The data request and attachment filed in EEGA are attached to this email.

If you have questions about this data request, please contact my supervisor, Zenaida Tapawan Conway, who is cc-ed here.

Thanks,

Jean
