

July 16, 2010

Dear Aspen Accord Participants:

On behalf of the Energy Coalition Board and the Aspen Accord members I want to express our excitement that you will be joining us for the Sustainable Energy Study and Discussion Tour in Germany. The event will provide us all with a very important opportunity to experience and learn from many precedent-setting and innovative energy and sustainable community policies/projects that are being pursued in the cities of Berlin and Freiburg. Each of your unique perspectives as a representative of either a local government, school district, utility, or utility regulator will enrich the discourse and ensure that we have a creative exchange of ideas between California and Germany. I look forward to welcoming you in Berlin and sharing in a valuable, timely and productive experience with all the attendees.

Attached for your review are copies of the final agenda, participant list and hotel confirmation information. Please contact Meaghan Laverty if you have any questions after reviewing the information or if you need any additional assistance. Meaghan can be reached by phone at (949) 701-4646, ext. 10 or via e-mail at mlaverty@energycoalition.org.

Very sincerely,

Craig Perkins
Executive Director
