Subject: Re: Climate Smart Bill Insert

Steve,

Just checking in to see if you had any concerns about the Climate Smart bill insert. We need to make a decision no later than this Friday and I'm out of pocket starting this Wednesday --- so I was hoping to tell the team tomorrow one way or another if we could move forward with the insert.

Also, let me know if the afternoon of July 29th will work for you, Julie, Jack and Gurbux about the PVC advice letter filing (affiliate rule compliance issue for the Corp's tax equity investment with SolarCity).  
Thanks

Erik

**Subject:** Climate Smart Bill Insert

Steve,

It was good to see you and Gurbux yesterday. Thanks for your time. I will be following up with you soon on the issues we discussed.

Something that came to my attention recently relates to the attached bill insert regarding our Climate Smart program. All customers, including DA and CCA customers, are eligible for this program under our tariff. As a result, we are planning to send this bill insert to all customers. It is certainly possible that MEA or other CCAs could complain to us (or to you) about this insert. They might view it as "competition." Given the sensitivities on these issues, I wanted to bring it to your attention. Could you please let me know if you have any concerns about the insert by next week?

Best regards,

Erik
