Subject: RE: Info on Consumer Fair at FCC LA Event - Flyer info

Hi everyone. Here are a few pictures of the venue. The room we will be in is that large bank of windows to the left of the front doors.

Currently, the plan is that the tables will be mostly in the back of the room, next to the windows, and a few on the sides. They only supply 8 foot standard tables (and naturally chairs). There are electrical outlets in the pillars at the windows and some in the walls. I suggest extension cords should be included in your supply box. There is broadband and wireless accessibility in the room. Please let me know if you have any questions. I would prefer calling our contact myself (or whomever else Lyle or Rachele

designate) rather than a dozen or so participants flooding her with sometimes the same questions.

Please arrive around 9:00 am to set up, since the broadband forum will be in the same room as the Fair. Loading and unloading is best done at the loading dock accessible from Alameda street at the purple gate. Parking is \$6.50 across First Street (at First and Central streets) and on a first come first serve basis. There are other lots in the area but none as convenient. Light rail transit stop is at Alameda and First street, across from the building and the Dash goes by there too. There are many Japanese restaurants in the area and some others too. The venue is in little Tokyo, about 3 blocks from the civic center itself.

Thanks

Subject: RE: Info on Consumer Fair at FCC LA Event - Flyer info

Attached is the flyer for the FCC August 31st event. Please spread it around liberally to any Asian Pacific Islander groups in the state. We want both API leaders and API consumers there. It's a rare event to interact with the FCC senior personnel on broadband. Please encourage them to register for the event just so we have a head count. The registration link is at the bottom of the flyer. Thank you everyone.

Thank you to the companies for their willingness to have a table at the consumer fair! It will be a lot of fun. Please encourage any Asian Pacific Islanders from your companies to attend. And thanks to Comcast who is going to sponsor the refreshments.

With kind regards,

Rachelle Chong

Subject: Info on Consumer Fair at FCC LA Event - Flyer info

Dear colleagues

Below please find the text of the flyer that Kyle Devine will finish up today for the FCC Broadband forum directed at the Asian Pacific islander Community on August 31st, 10:30 AM to 2 PM at the Japanese American National Museum in Los Angeles. She will send it out to this group when it is done.

I have contacted the companies and associations about hosting a consumer oriented table at the event. Please let myself and lyle ishida of the FCC (Asian outreach officer) know if you plan to host a table! (Think bill fair type of table but you can also have marketing materials. Giveaways are also very popular.) For more info on the participation in the consumer fair, please contact lyle ishida (lyle.ishida@fcc.gov) and Kyle Devine CPUC (kyle.devine@cpuc.ca.gov) or myself. There will be table set up in the back of the Central Hall.

Anni, Jose, Alex, Chantel, Luis and Raquel: I need your good efforts in getting the word out to Asian groups about the event. Be sure to have the attendees register at the link at the bottom. We can provide disability and language interpretation support and they just indicate it when they register.

Thank you everyone

Rachelle
