Thanks for the perfect response. I will forward internally. Peter is likely to call Mike about it now that we are very clear.

I really appreciate the response.

Because of the extreme sensitivity of this subject area with the public, the media, and the Legislature, it's important not just that we guarantee the independence of the Structure investigation, but also that we be SEEN to be guaranteeing independence. Any release of the results of the Structure investigation to PG&E before they're made public would raise legitimate questions about that independence, and we can't do it. I'm sorry.

Paul - Is there any possibility that we could view the Structure Report or an Executive Summary of the report an hour before its release so that we would be in a position to answer the media inquiries on factual issues ? Any flexibility you have in this area would be appreciated. Let me know.
