BTW - are you involved in the LLNL High Performance Computing project that Peevey wants the three IOUs to do ? Edison is being recalcitrant.

Subject: PG&E Novation advice letter

Both Steve Haine and I have reviewed the AL and protest and agree that the advice letter can be approved via disposition letter disposing of DRA's protest. Steve will give me a draft of the letter by end of day Monday and hopefully we can issue it Tuesday or Wednesday of next week. Thanks for your patience while I confirmed this.

Julie
