Amy,

We should be able to get it done but I will confirm.

Thanks,  
Meredith

Hi  
Meredith,

I'm planning on posting the RPS Compliance reports on the website. PG&E's filing was quite large (7.5 MB) and spread out in such a way it would be difficult to figure out what cells are associated with what. In addition there are about 4 blank pages. Could PG&E work on making this filing easier to read as well as smaller? SCE's filing is a good example, it was less than half a MB. Alternatively, I'd take an XLS file that has been blacked out, I can send you the unlocked version of your filing. Could PG&E have this done by the end of the week?

Thanks,

Amy
