Subject: Follow-up questions and vacation

Jack,

As I mentioned at our meeting today, I'm going to be on vacation for the next two weeks, returning on Monday, August 23. If you need to follow-up with PG&E on any of the issues we discussed today during this two week period, please use Erich Lichtblau (973-1133) as your point of contact. Since your vacation coincides with mine, I'm not expecting much interaction between Energy Division and PG&E over the next two weeks on this topic, but if by chance you do need something or you want to send us the revised questions, feel free to send them to Erich and he can get started on developing our response.

Thanks for you time today and have a great time in Hawaii.

Erik
