Subject: RE: Data Request for RPS PPAs

Amy

Per your request, I have submitted through the CPUC's FTP system copies of the RPS power purchase agreements (PPAs) and amendments listed in the table below. Banking and taxpayer identification information was redacted from the PPAs. I will be out of the office next week, so should you have any questions during this time frame, please reply to all to this email and someone will address your questions in my absence.

Please note that a number of the PPAs attached a form EEI Master agreement without any amendments to the form. Because the form EEI Master agreement is already a public document that is posted on the EEI website, rather than include the entire document with this submission, I've included the link to the Master agreement below.

Link to EEI Master Agreement:

<http://www.eei.org/ourissues/ElectricityGeneration/Pages/MasterContract.aspx>

Finally, we have listed in the table below a number of amendments that remain confidential and market sensitive since they are still within the 3-year confidentiality period. These amendments are not included in the public disclosure packages that I uploaded via FTP, but we would like to make sure that you and members of the public are aware that the publicly-disclosed PPAs have amendments that are not yet able to be disclosed. In some cases, those market-sensitive amendments included changes to contract terms that must be publicly summarized (e.g., delivery point). In such cases, we have summarized those changes in the table below.

Please let me know if you have any questions.

	Name	Document	Year	Notes
1	Beardsley (Tri Dam)	Confirmation Agreement	2004	
		Master Agreement	2004	
2	Buena Vista Energy	Cover Sheet	2005	
		Amendment 1	2005	
		Amendment 2	2006	

Amendment 3 2008 Amendment contains confidential and protected material.
Amendment provides in part for a new delivery point at the pnode WNDMSTR_2_N001 and new contract quantity of 108,000 MWh .
