Subject: PG&E's Energy Efficiency Savings in 2009

Hi  
Sid,

I asked staff to put together the attached comparison of PG&E's reported savings for 2009 compared to 2008. I read the comparison to say PG&E's reported energy savings in 2009 were 56% of its 2008 savings. This analysis got Commissioner Grueneich's attention in a big way. Could that be right? Will you have your staff take a look and follow up. If the analysis is right, what the drivers?

Thank  
you,

Matthew
