Subject: RE: Data Dictionary

Hi Dave, sorry for all the delays and confusion. I discussed this on a call with the utilities a few weeks back and sent an email to some folks (see attached) that documented my expectations for the 9/1/10 deliverable.

Basically, all I'm really looking for on 9/1/10 is your Monthly report spreadsheet populated.

A base bones EEGA site should be up and running for Beth to post.

The tracking deliverable will proceed but at a slower pace (taking Athena's suggestion to test everything out first with a sample of data).

George,

Do we have an update on that data dictionary? I don't think we'll be able to make that September 1 deadline for sample tracking data to test out the new EEGA system without the data dictionary. Can we discuss what is expected on Sept 1 and a new timeline for this data on our next call?

Thanks,

Sorry David, I'm behind on this. I'm thinking of getting the dictionary out by next week. At that point I would call a meeting to go over it together with all the utils.

Hi George,

Any word on the Data dictionary or if we're going to have another meeting? I'm just wondering since I haven't heard anything since the last meeting a couple weeks ago.

Thanks,
