Here's the report from Kory who is at the scene.

KPIX 5 and KGO 7 are interviewing parents. We checked the meter and found no indications of a leak. We will check the lines as well.

The school turned on the heater this morning, and we believe the odor might be the residue that built up on the HVAC system during the summer.

As a precaution, M&C is sending a leak surveyor to flame pack the area. Will report any findings shortly.

Looping in Papia Gambelin in Gov Rel who is also on the ground in San Bruno.

Ashlie and Papia need this information ASAP. Thanks everyone!

Jeff and [Redacted]

[Redacted] heard through the San Bruno OES that [Redacted]
[Redacted] as been evacuated because of a gas odor. [Redacted] is working with Ruben Ramirez to investigate and report back to Ben Almario.

Thanks,
Brian
