Subject: RE: Data Request

Not sure he wanted me to double check or what. He wanted to know their role. I told him oversight. Review of how PG&E handled what happened before, during and after the event. That the Committee would have access to data from CPSD and other parties including PG&E. Wasn't sure they would have the NTSB stuff but said it was likely. That the panel would have some sort of recommendation to make at its conclusion to the PUC. Did I get that right ?

Nothing to add to what they heard from Mike himself on Thursday. There's a draft Charter with Item 42, but I don't expect that to be released until the Escutia table Thursday.
