Subject: SGIP Program Administrator's Letter to Bloom Energy - Directed BioGas Attestation documents issue

Mr. Collins:

Attached for your action is a letter jointly approved by the 4 SGIP Program Administrators in the matter of the "Directed Biogas Fuel Supplier Attestation" documents, that were submitted earlier this year by Bloom Energy as part of the various Fuel Cell Project Reservation Request Applications.

The Program Administrators are excited to work with you to move ahead so that all of these customer fuel cell projects can proceed and help us achieve our collective SGIP Program goals.

Please let us know if you have any questions on this matter.

Sincerely

Gary Barsley
