Subject: RE: PG&E Workplan - follow ups

Hi David,

Also as a follow-up, do you have the status of the EnXco RALF (AL 3705-E) and Solaren (AL 3690-E) projects as they were not integrated in the workplan we discussed on Tuesday. It would be helpful to know where these projects stand in comparison to the others. Furthermore, as a comment on the workplan, could you add a column with the Advice Letter numbers for each project. It would be easier for us to keep track of projects with that information. Thanks.

Regards,

Niki

Workplan - follow ups

Sean/Niki:

-For Enco/Samsung, the counterparty has told us that all five projects are seeking ARRA funding.

-We are still waiting to get the ARRA information from SunPower. I will pass that along as soon as I get it.

Thanks,
