

PG&E's 2009 Electric Power Mix Delivered to Retail Customers*

PG&E's 2009 Total Eligible Renewable Resources**

* "Unspecified Sources" refers to electricity generated that is not traceable to specific generation sources by any auditable contract trail and "Other Fossil" includes diesel oil and petroleum coke (a waste byproduct of oil refining).

** As defined in Senate Bill 1078, which created California's Renewable Portfolio Standard, an eligible renewable resource includes geothermal facilities, hydroelectric facilities with a capacity rating of 30 MW or less, biomass, selected municipal solid waste facilities, solar facilities and wind facilities.
