Subject: RE: Process to request ED early opinion on custom measure/projects

Thanks Peter-

I will be posting the UCSF project this morning. It will not have the unique identifier yet as we are still working on setting up a naming/numbering system for ED reviews but we need an opinion on this project as soon as possible.

I would also like the other IOUs to weigh in on making the ED reviews available to all of us. It seems to me that we will all have similar questions come up and it would be helpful for all of us to see the responses. How do the other IOUs feel about this?

Thanks, Grant

Subject: Process to request ED early opinion on custom measure/projects

Hi All,

In the past, and more so recently, the utilities have sought ED's opinion on various custom measures/projects for which they have been unsure of the approach that ED might use in evaluating such projects. ED provided early opinions for several projects as a courtesy to the utilities. Each of these early opinion projects presented different Evaluation, Measurement and Verification (EM&V) or Energy Efficiency (EE) policy issues that utilities have questions about. The utilities have been emailing ED staff requesting this early opinion. Staff requests that IOUs now make their request for ED early opinion using Basecamp. The attached document describes this process.

Athena/Grant: You recently submitted an email request to me for an opinion on a project. Please upload this request and project documentation to Basecamp.

Thank you.

Peter
