R.09-11-014

Shilpa/Sandy, et al -

Thanks for your participation in the workshop today = it is helpful that Lara Etteson offered to coordinate the initial get together. I have spoken with Steve Roscow about the timing - I don't think this all can be solved before Dian's term expires, but nevertheless, consider the future. IF, a small bedroom community adopts to be a ZNE community, how would they go about it? The EE side of all this knows the EE rules, but some city or other group may not know. It does apply to the gas side too, despite the perceived differences of structure. The gas side does have a precedent here for core aggregation - remember SCUPP? This is a long haul, but the evolvement needs to be documented and the current policies need to be outlined so that the full picture is shown.

Again, thanks for your participation. I would offer (from the EE side of Energy Division) any "free" conferencing or webinar that might be useful here. Let me know.
