Subject: PG&E San Bruno Announcement

Timothy/Ken - The press release attached below announces the creation of a fund, up to \$100 million, for the residents of San Bruno to help recover from last Thursday's tragic events. The funds are designed to provide immediate support for San Bruno residents. The payments are not meant to secure waivers of any potential claims against PG&E for its culpability in this matter (should that be determined). Peter and Chris are holding a press conference at noon to announce this program. I am available at Redacted to answer any of your questions.
