**Re: Long Range Gas Transmission Pipeline Planning Input
Top 100 Segments**

Dear Mr. Clanon:

Attached is an update to the 2009 Top 100 Gas Transmission projects initially shared on September 20, 2010. Provided are both a red-lined version highlighting the changes and a clean version. The updates are few and not extensive. A couple of the changes reflect an update to location information. For example, pipeline segments often run through more than one municipality and the adjacent municipality was incorrectly listed on the original document. PG&E will also post this new version on its website.

Sincerely,

Brian Cherry (SC)
