Subject: FW: 2nd draft: LIEM monthly report

Beth and all,

After speaking with Mary we decided that for this month we would leave the washer as a pilot and add the budget of 750,000 less the 2009 spent of 17,766 to the authorized pilot budget. We definitely need to revisit this next month. I went in to table 1 and added in the budget amount and adjusted all the percentages but I would feel better if someone could go in and double check that I caught everything since this file had no formulas in it - just hard coded numbers. I also updated the footnote on table one to indicate what I did.

Beth - maybe you can call me in the morning to discuss if no one else has looked at it. Plus I would assume you will want to change this file to just be hard coded numbers if that is how we normally send it to the Commission. I assume these numbers aren't referenced in the word document?? I didn't touch it.

Moustafa - I'll have to show you what I did so you can update your files for the next monthly report.

Subject: 2nd draft: LIEM monthly report

Hi:

Here is the 2nd draft of the LIEM report.

Gene has the following question about LIEE Table 6 I need help answering:

"LIEE Table 6, High Efficiency Clothes Washers, line 10: current month's expenses were lower than July's expenses, even though more units were installed and there were greater savings in Aug. versus July (LIEE Table 2 shows more expenses in Aug. than July). Is that OK?"

Mardi, I know you want to talk to Mary about the washers pilot on Monday. I'll wait to hear back from you on that issue.

I will be in San Ramon on Monday. I will be working from there. Send me e-mails if there are questions/discussions. I'll be checking e-mail from San Ramon.

The final report goes to Gene on Tuesday, so let's try to get the last questions resolved by close of business Monday.

Beth Knapp
