Subject: AL 3065-G-B/3562-E-B - Draft Substitute Sheet

<<...>> <<...>> <<...>>

Anne,

As Peter may have told you we had a "linking" problem with the Total Portfolio Input-Output file that we posted last week with the AL. We have corrected the file and replaced the PG&E Program E3 zip file on PG&E's website with the zip file that is attached.

Procedural question - Do we need to file a substitute sheet for this electronic file change? I have attached the draft that we prepared today in case you think we need to submit this. The letter includes an explanation of the change. Just let me know.

Thanks
