

## Marketing, Education and Outreach Program

	Mission	IOU COMMENTS
SW Program: <b>Marketing, Education &amp; Outreach (ME&amp;O)</b>	Increase consumer awareness and participation in demand-side management activities and to encourage behavior changes that save energy, reduce greenhouse gas emissions, and support clean energy solutions.	IOUs suggest minor edits to the mission statement as follows:  Increase consumer awareness, knowledge, and participation in demand-side management activities and to change attitudes and encourage behavior changes that save energy, reduce greenhouse gas emissions, and support clean energy solutions.

<b>CA EESP Goals/Strategies Addressed by SW Sub-program:</b> Create and launch an integrated, statewide Marketing, Education and Outreach effort for Energy Efficiency, including an energy efficiency brand, resulting in high levels of awareness statewide of the value of energy efficiency that leads to strong demand for energy efficient products, homes and services	<b>CA EESP Ref. pp. #</b>
<b>Strategy 1-1:</b> Establish a recognizable and trustworthy brand for California's Energy Efficiency and other DSM consumer products & services <b>2010-2012 Near Term:</b> <ol style="list-style-type: none"> <li>1. Research appropriate look and meaning of a California efficiency/GHG reduction brand: (done)</li> <li>2. Launch integrated efficiency/DSM brand in 2010</li> </ol>	p. 82
<b>Strategy 1-2:</b> Develop an integrated marketing plan for all Californians. <b>2010-2012 Near Term Goals:</b> <ol style="list-style-type: none"> <li>1. Conduct SW segmentation research, on interests, awareness and attitudes/perceptions related to EE and GHG messaging (done);</li> <li>2. Establish objectives and metrics for public campaign;</li> <li>3. Develop targeted and highly relevant EE and DSM marketing messages to incite behavior change/action;</li> <li>4. Create partnerships with private industry and businesses to help motivate consumer and business</li> </ol>	p. 82

sector action; 5. Define deliverables for each strategy.	
<b>Strategy 1-3:</b> Use social marketing techniques to build awareness and change consumer attitudes, and perceptions. <b>2010-2012 Near Term Goals:</b> 1. Develop a roadmap for a social marketing approach including exploration of behavioral science principles.	p. 82
<b>Strategy 1-4:</b> Develop a California energy efficiency web portal with statewide information on GHG reductions, efficiency and DSM awareness and options. (done in Sept. 2010) <b>2010-2012 Near Term Goals:</b> 1. Develop initial web portal for the energy efficiency/DSM industry 2. Begin pilot programs in using web portal	p. 82

Short-term (2010-2012) "SMART" <u>Sub-program</u> Objectives:	Source (SP, AL, DR, PIP, or Staff)*	IOU COMMENTS
<p>1. By 2012, increase awareness and knowledge of Engage360 brand among targeted IOU customers by X and Y percent ( IOUS will submit research regarding what X and Y will be in their 9/29 document).COMMENT: the X and Y will not include any bump the brand might get from any additional programs.</p> <ul style="list-style-type: none"> <li>- these numbers might be impacted by IOU cobranding which is not expected to happen until the end of the cycle, at the earliest.</li> <li>- numbers will be CAVEATED with comparative categories, etc.</li> </ul>	SP, PIP	<p>The PIP does not address how the program will be implemented.</p> <p>The IOUs propose that the objectives reflect the timing of program implementation. Specifically, implementation will occur in a two-stage campaign wherein the bulk of the 2010-2012 cycle will be dedicated to the first stage, "Grassroots and Social Networking." During this first stage, a relatively focused group of influencers will be targeted by one-to-one and one-to-many marketing efforts. In the second stage, which</p>

		<p>is unlikely to begin any earlier than the end of the 2010-2012 cycle, two segments of the general population comprising "high EE propensity" California adults (see 2009 ME&amp;O segmentation study for details) will be targeted in a broader marketing effort. The 2013-2015 cycle will be dedicated to the second stage of the campaign, and the objectives for that cycle should emphasize the second stage.</p> <p>Given this phased roll-out of the program, we propose the following objective for the 2010-2012 cycle that emphasizes phase one:</p> <p>By 2012, increase awareness and knowledge of the Engage360 brand among those customers targeted by the "Grassroots and Social Networking" program efforts by 10 percent and 5 percent respectively.</p>
<p>2. By 2012, increase in awareness and knowledge of specific energy efficient actions among targeted IOU customers..</p>	<p>Staff</p>	<p>IOUs would like to modify this as follows:</p> <p>By 2012, increase the number of specific self-reported energy efficiency actions among</p>

		IOU customer groups specifically targeted by the initial phase of the program.
3. By 2012, increase the number of specific self-reported energy efficiency actions by targeted IOU customers.	SP, PIP	IOUs would like to modify this as follows:  By 2012, increase the number of specific self-reported energy efficiency actions among customer groups specifically targeted by the initial phase of the program.

Short-term <u>Sub-program</u> PPMs:	Source (SP, AL, DR, PIP, or Staff)*	Metric Type (2a or 2b)**	Baseline Study Required (Y/N)	IOU COMMENTS
1. Awareness and knowledge of the Engage360 brand.	SP, PIP	2a  IOUs suggest this be changed to a 2b metric given the late launch of the campaign	N	The IOU's propose the following: Awareness and knowledge of key elements of the Engage360 brand among customer groups specifically targeted by phase one ("Grassroots and Social Networking") of the program. <i>This metric does NOT require a baseline since the starting point is 0, however, it will require ongoing tracking</i>
2. Awareness and knowledge of specific energy efficient actions.				The IOU's propose the following: Awareness and knowledge of energy efficient actions promoted

		2b	Y	by the program among customer groups specifically targeted by phase one ("Grassroots and Social Networking") of the program. <i>Need baseline for assessing awareness and knowledge of "specific" EE actions.</i>
3. The number of self-reported specific energy efficiency Actions.	SP, PIP	2b	Y	The IOU's propose the following: The number and type of energy efficient actions self-reported by customer groups specifically targeted by phase one ("Grassroots and Social Networking") of the program. <i>Current baseline study assesses specific EE actions.</i>

\*SP=Strategic Plan, AL=Advice Letter, DR=Data Request Response, PIP=program plans, Staff=ED proposed. [Include page reference when applicable.]

\*\*Metric type: 2a = reported annually, 2b = reported by end of cycle.

Long-Term (2013-2020) "SMART" <u>Sub-program Objectives</u> :	Source (SP, AL, DR, PIP, or Staff)*	IOU COMMENTS
1. By 2020, xx% of Californians will have taken EE/conservation actions	SP, PIP	In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
2. By 2020, xx% of Californians are aware of energy management strategies including EE, E conservation, DR and DG.		In order for IOUs to provide substantive suggestions for these percentages, we

	Staff	would require more time to contemplate and to gather input from other key stakeholders.
3. By 2020, the average number of actions taken per household will have increased by xx %.	Staff	In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
4. By 2020, the percent of Californians that consider themselves an EE advocate will increase by x%.	Staff	In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
5. By 2020 percent reduction in targeted households average energy consumption.	SP, PIP	In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
6. By 2020, increase the conversion of targeted customers to a Smart Energy Lifestyle by x%.		In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
7. By 2020, the percent of resource program participants channeled via ME&O activities will exceed X%.		In order for IOUs to provide substantive suggestions for these percentages, we would require more time to contemplate and to gather input from other key stakeholders.
